Summary

Software Engineer with experience in Industrial IoT (IIoT) routing development on embedded Linux for Cisco platforms. Skilled in networking fundamentals, debugging, backend development, and building software solutions across embedded and application domains.

Experience

Software Development Engineer @ [EmbedUR Systems](#)

IIoT Routing Development Team | 2026 – Present

- Working on Industrial IoT (IIoT) routing solutions in an embedded Linux environment for Cisco platforms.
- Worked with embedded networking concepts, Linux-based systems, routing workflows, and firmware-level debugging.
- Collaborating with development teams to analyze logs, reproduce defects, and validate fixes.

Skills

Languages: Java, Python, C, Dart

Frameworks: Flutter, Spring Boot

Coursework: Problem Solving, Data Structures, OOP, Networking, Linux CLI, Shell Scripting, Docker.

Databases: Firebase, MySQL

Tools: Android Studio, Figma

Soft Skills: Teamwork, Time Management, Adaptability, Avid Learner

Projects

MINDIT – Mental Wellness Screening App | [GitHub](#)

Flutter, Firebase

A multilingual mobile app built with Flutter and Firebase that enables early mental health screening for individuals and families through age-specific questionnaires and provides automated, zone-based recommendations with admin reporting tools.

Blind Assist – Assistive Navigation for visually impaired users | [ProjectLink](#)

Python, Embedded Systems, OpenCV, Flutter, Hugging Face

An AI-powered assistive navigation system for visually impaired users that performs real-time obstacle detection and depth estimation using YOLOv8 & Monodepth2, delivering voice-guided navigation assistance.

Mars Rover Simulation System | [GitHub](#)

Java, Spring Boot, OOP, Command & Composite Patterns

A rover simulation allowing navigation on a configurable grid with obstacles, supporting CLI and HTML frontends, logging movements, and providing real-time status reports.

Education

B.E. Computer Science and Engineering

2022 – 2026

Thiagarajar College of Engineering, Madurai

CGPA: 9.18 / 10

Achievements

- Awarded Silver Medal for being Topper I & II SEM 2022-2023.
- Developed an app called MINDIT for Rajaji Government Hospital and earned ₹80,000.
- Secured ₹25,000 for winning the POWER AI hackathon.
- Conducted a Workshop on Spring Boot for juniors and peers.

Certifications

- Certified that assessment for the skill Python (Basics) – HackerRank.
- NPTEL Certified (91/100) — Problem Solving through Programming in C (12 weeks). | [Link](#)
- CS50P-Certified (Harvard University, edX) | [Link](#)
